

Checklist

- Where are your stair components coming from?
- Who is ultimately going to build your project?
- Will they be pulling permits or am I?
- Ensure you understand the “standard” of what is and is not included in the price. Furthermore, if there are any upgrades available that you’d prefer and at what fee.
- Who will be here every day?
- How do I reach you after hours?
- Am I using reputable professionals?
- Is the company/contractor bonded?
- What are their online reviews like?
- Have you written and published any books within the industry?
- Do they have paid insurance?
- Ask how your money is protected.
- Investigate a contractor/company’s work history and work habits.
- Be aware of the contract details.
- How will my property be protected?
- Ask if any part of the project concerns the contractor/company.
- What kind of documentation will I receive when the project is done?
- What are your accessibility considerations?
- What are your storage requirements?
